EDUCATION

John Jay College of Criminal Justice   May 2022
Bachelors of Science, **Computer Science and Information Security**
 Relevant Coursework: Data Structures | Computer Architecture | Algorithms | C++ Programming | Linux Systems

TECHNICAL SKILLS

Programming Languages: JavaScript, React.js, HTML, CSS, Python, C++, Docker, Django, Flask, Linux, Bootstrap, R, Git/Github

PROFESSIONAL EXPERIENCE

Front End Developer Intern, Vngle   June 2022 - August 2022
- Responsible for redesigning the Vngle website using **React.js, Gatsby**, and **Bootstrap** to better show news coverage in a team of 4 developers.
- Built and designed a browser cookies banner to display on the landing page with "accept" and "refuse" functions,
- Co-designed the homepage; created a sticky header.
- Built and designed two pages called "Content Creative Services" and "Become a Vngler"; added animations on the Ally page and created forms which enable users to be able to send messages to the company.
   Nonpartisan Grassroots Verified News | Vngle

Network Engineering Intern, Verizon   Dec 2021 - Jan 2022
- Collaborated with project leads in the engineering department to design a solution that will prioritize tasks in an efficient manner using color coding with different priority levels in order to decrease late submissions.
- Built a prototype of the prioritization project using Figma in a group of 4; and was responsible for creating the design of the landing page, prioritized task list page, and upcoming tasks
- Participated in daily standups to go over progress or issues, and presented the final design to 200+ people.

Front Desk Assistant, Center for Student Involvement & Leadership at John Jay   Oct 2019 - May 2020
- Assisted 5-10 people per day, answering general inquiries about campus, activities, and office hours via email, phone, and in person.
- Performed administrative tasks such as printing fliers, and general organization to maintain upkeep of the office.

Game Room Attendant, Center for Student Involvement & Leadership at John Jay   Nov 2018 - May 2019
- Tracked inventory of all games and borrowed equipment by logging hours and 5-10 students' information per day and verified all equipment was in a working state.

PROJECTS

- **FoodList:** Used **JavaScript, HTML**, and **CSS** to build a web application to show available food pantries in a team of 3 developers; was responsible for delegating tasks, building the "About" page, Terms and services page and assisted with styling: https://github.com/pikamegan/foodlist
- **Job Search for College Grads:** A full stack web application built in a team of 3 using **React.js, HTML, CSS** and **Node.js** to showcase available jobs based on the user's interests. built and designed the front end: https://github.com/owolabiezekiel/hackathon-rookiehacks
- **Election Information for Voters:** Built a full stack web application using **Vue.js, Node.js**, **HTML**, and **CSS** in a group of 3 developers to show information about candidates for the general election. Created the Figma design of the website, building informational pages for each election candidate, and implementing a calendar that shows how many days are left until the election: https://github.com/seasea19/Hacka / https://github.com/seasea19/HackaTemp

ACTIVITIES

Fellow, Project Basta   June 2022 - Present
- Selected to participate in a rigorous 10 week career prep program designed to support first-generation college students receive a great entry-level role.

Web Development Resident, Tech Talent Pipeline Residency   Jan 2022
- Placed in the top 25% of applicants to participate in a rigorous coding bootcamp learning **React.js, HTML, CSS, postgreSQL**, securing an internship following the completion of the program.

LANGUAGES

Languages: English, French, Creole.
